

R21210 LOAD STOP KIT

Owner's Manual

OVERVIEW

Overview: Thank you for purchasing a Load Stop Kit. Load stops make hauling things on your rack much easier and more secure, as they add walls to your rack system. It is ideal for things that can shift easily, like tubing, lumber, or other items. The load stops make a great extra tie down point as well, and they work with most S-hook ratchet straps for securing your cargo. They use the integrated T-slots on Truckify rack crossbars, and are adjusted and tightened down quickly and easily by hand.

STEP 1

Start by loosely assembling (4) Wing Bolts and T Nuts in the load stops.

STEP 2

Next, slide the load stops into the T slots of your rack. Make sure the T Nuts are sliding in the T slots correctly. Adjust your cargo on your rack, and slide the load stops against it tightly. Then, tighten the wing bolts by hand. If your wing bolts are stuck after tightening them, a screwdriver or a crescent wrench can be used to loosen them.

STEP 3

Finally, use an S hook ratchet strap to secure your cargo. Hook the ratchet loops in the holes of the load stops and secure tightly. Check your cargo and make sure it is secure.

Warning and Safety Instructions

- Driving with loose bolts or fasteners could lead to serious injury of people and damage to equipment
- Failure to follow proper installation instructions could lead to serious injury of people and damage to equipment
- Do not haul cargo that is not secured properly
- The Wing Bolts are only intended to be tightened down by hand

Replacement/new parts can be found on our website: **Truckify.com**

Returns

All returned products must have prior authorization from Truckify before they are shipped back to our facility. Returned products without pre-authorization are not eligible for credit. There will be a 20% restock fee on returned items. Products must be returned within 60 days of the date of sale to be eligible for credit. To request a return, go to our website, Truckify.com, under returns, to submit a return.

Warranty

This product comes with a limited one year warranty. Products manufactured by Truckify are warranted to be free of defects due to faulty material or workmanship for 12 months from the date of purchase. Normal wear and tear is not considered a defect in material or workmanship. Liability under this warranty is limited to the replacement of the defective part provided that the following conditions are met:

- Truckify is promptly notified in writing of such defect immediately upon discovery, and the defective product is returned for inspection
- The defect is not due, without limitation, to faulty installation, misalignment of the product, vibration, pressure pulsations, ordinary wear and tear, corrosion, ultraviolet degradation, operation outside the product specified limits and using the product for uses other than its intended use
